

# Children's Therapy Center

*Helping children achieve their fullest potential*

## Summer Camp Programs

Fostering a spirit of independence and exploration while maintaining structure and providing guidance for your child will be the focus of this camp. Creativity, through the use of open-ended activities, such as arts/crafts, water play, dance, and games, will be used to enhance the development of each child's social, emotional and physical growth. The children will be required to bring a lunch each day that is centered around a specific theme. Space is limited to 10 children per camp session.
